 Notice

- Please read and understand all instructions before use:
- The warranty does not apply if damage is caused by failure to follow these instructions.
 - **Only alkaline batteries can be used, other batteries are not recommended.**
 - When cleaning the product, please wipe it with a soft cloth.
 - When the battery power is low and the alarm occurs, please replace the battery in time to keep the battery power sufficient.
- * The "electronic main control module" of this product (please refer to the basic product introduction) is dust-proof and water-resistant; tested under controlled laboratory conditions, its effect reaches IP65 level; dustproof and water-resistant functions are not permanently effective.
- Protective properties degrade due to daily wear and tear. Do not charge the smart lock (emergency power interface) when it is wet; damage caused by liquid entering the internal structure of the electronic lock is not covered by the warranty.
